

Continuing Education Meeting for Medical Laboratory Immunology 2024

SSAI Société Suisse d'Allergologie et d'Immunologie
Schweizerische Gesellschaft für Allergologie und Immunologie
Swiss Society for Allergology and Immunology

NOVEMBER 22, 2024

**Kantonsspital
AARAU**

Invitation

Dear colleague,

With great pleasure we invite you to join us at the 2024 Continuing Education Meeting for Medical Laboratory Immunology organized by the Commission on Laboratory Diagnostics (CLD) of the Swiss Society for Allergology and Clinical Immunology (SSAI), which takes place on Friday November 22nd, 2024 in Aarau.

As always, this event is primarily organized for Laboratory Medicine Immunology Specialists with FAMH titles and title candidates but is also open for others interested and active in medical laboratory immunology. The meeting has a scientific and open character and aims to increase the quality of medical laboratory immunology in Switzerland.

The program includes topics covering subjects as autoimmune encephalitis, SLE and antiphospholipid diagnostics with excellent local and foreign speakers.

We are confident that the meeting appeals to your interests, enables lively discussions, and allows you to exchange, network and foster collaborations with your colleagues in Switzerland.

We are very much looking forward to your participation and to seeing you in Aarau in November!

Kind regards

On behalf of the SSAI CLD

Dr. L. Bernasconi

CLD President

Program 2024

09:00 – 09:30 Registration and Coffee

09:30 – 09:40 **Welcome and Communications of the SSAI Commission of Laboratory Diagnostics**
Luca Bernasconi (*President CLD, Aarau*)
